Thanks Bill.

Rich – In order to prepare for the upcoming split sampling, please send me a list of the residents' water supplies that will be sampled, including the anticipated schedule with dates and times. In addition, please also send a copy of the FSP and QAPP for the sampling project. I'd also like to discuss the upcoming sampling as well. I'll give you a call in the morning.

Thanks,
John

Subject: Dimock, PA Well Water Sampling and Alternate Water

Mr. Smelko -

This message confirms our telephone conversation earlier this afternoon in which you indicated Cabot's desire to split well water samples with EPA for the 61 homes in Dimock, PA to further assess whether the residents are being exposed to hazardous substances that cause health concerns. During our conversation you indicated that initially you will be the contact person for Cabot. The EPA Region III On Scene Coordinator responsible for managing the Dimock well water sampling is Rich Fetzer. To facilitate your coordination with each other on the well water sampling, I have provided below the contact information for each of you and urge you to get in contact with each other as soon as possible.

John Smelko	Rich Fetzer
john.smelko@cabotog.com	fetzer.richard@epa.gov
412 613 7642	215 341 6307

With regard to EPA's offer to Cabot to provide alternate water to the four homes in Dimock for which EPA has determined that there are contaminants present at levels which present a health concern, you indicated that counsel for Cabot would be responding to EPA's counsel regarding the same.

Thank you for your attention in this matter. Should you have any questions, please feel free to contact me.
